DEVELOPMENTALLY APPROPRIATE CLASSROOMS/KINGERGARTEN TRANSITION

LPHS implements *The Creative Curriculum for Infant, Toddlers and Twos* and *Creative Curriculum* for pre-school children. This curriculum guides our approach to providing quality childcare and education. Children are given the opportunity on a daily basis to explore classroom environments that are intentionally designed to support individual interests and levels of development. A few of the fundamental beliefs that underlie *The Creative Curriculum* are: building a trusting relationship with each child; providing responsive, individualized care; creating environments that support and encourage exploration; ensuring children's safety and health; developing partnerships with families; and appreciating cultural, family, and individual differences.

Transitioning from Early Head Start to Head Start preschool starts when child is 2 ½ years. Family income is verified for eligibility. If family is determined to be income eligible, when child turns 3 years and an opening is available, the child will transition into the preschool program. If family is determined to not be income eligible, Family Service Manager will help family to transition child into another program within the community by the child's third birthday.

LPHS collaborates with White Pine County School District for children transitioning into Kindergarten. LPHS has a workshop at our facility for parents and tries to set up visits to each of the Elementary schools for children and parents to meet teachers and see classrooms. LPHS Family Services Manager will remind parents of Registration dates and work with them to make sure they have all documentation needed for Registration. LPHS also provides parents with their children's Developmental Profile and a Kindergarten Readiness Pamphlet. This year LPHS expects 28 children will transition into Kindergarten.
